"Father Pavone insightfully writes that Roe v. Wade didn't just subvert the principle that no government can authorize the killing of the innocent, it subverted the very government our nation's Founders created. Abolishing Abortion is about saving lives, but it's also about saving our republic."  
**Governor Mike Huckabee**

"I have known no better warrior in the fight to protect every human life than Father Pavone. His new book Abolishing Abortion makes the compelling case that the pro-life cause defends the same principles for which our Founding Fathers fought. As they pledged their lives, fortunes, and sacred honor, so must we!" **Senator Rick Santorum**

"We in public office cannot do our job unless the church does her job. I've known Father Frank Pavone for many years and am proud of his work. His latest book is no exception. In "Abolishing Abortion," Father Pavone gives a stirring call to both church and state to protect the unborn. This book is a must for all who want to heed that call!" **Governor Sam Brownback of Kansas**

"Father Frank Pavone is a valiant fighter for the right to life of unborn babies, and we thank him for his indispensable leadership in that ongoing battle. "Abolishing Abortion" is an important book to encourage and guide all of us to join in combating the greatest evil of our times." **Phyllis Schlafly, Chairman, Eagle Forum**

"Fr. Frank Pavone has been my friend since 1995 and was the catalyst that brought me into the Catholic Church. He is a guide for our movement. I pray that Church leaders and their congregations will follow his message in his new book, Abolishing Abortion." **Norma McCorvey, plaintiff Jane Roe of the Roe vs. Wade Supreme Court decision legalizing abortion (1973)**

"Just as my uncle, Rev. Martin Luther King, Jr. fanned the flames of the civil rights movement, so today Rev. Frank Pavone is doing the same for the movement to end abortion. Fr. Frank's book 'Abolishing Abortion' is another step in that great task." **Dr. Alveda King, Niece of Martin Luther King, Jr.**

"Father Pavone is one of the most passionate and articulate defenders of the sanctity of human life in the world today. In this book, he offers a practical roadmap for those of us who share his commitment to defending life in the womb and to changing hearts and minds on this most important issue."  
**Jim Daly, President, Focus on the Family**

"Father Pavone has written a powerful book, one that makes the case that 55 million abortions in America since 1973 defies the principle that the sanctity and dignity of each and every life is precious in the eyes of Providence. Abortion is not safe or rare. Our beloved nation can do better."  
**Tim Goeglein, Vice President, Focus on the Family**

"In Abolishing Abortion, Father Frank Pavone has written a compelling and eloquent book about the importance of protecting human life. It raises provocative questions not only about abortion's influence on this nation but also about the church's role in defeating the culture of death." **Gary Bauer, President, American Values**

"In Abolishing Abortion, Fr. Frank Pavone not only gives us a blueprint for saving lives, but calls us to reclaim, defend and apply the principles on which our Founding Fathers established this nation. I urge you not to miss this powerful message!" **David Barton, President and Founder, Wallbuilders**

"Most Americans, confronted with the facts about abortion, find the destruction of unborn human life repellent. Father Frank Pavone has written an eloquent, timely, and eminently practical account of how to take advantage of the horror abortion inspires in order to put an end to it. The book should be read widely and acted upon quickly so that we can put legalized abortion behind us once and for all." **Russell Shaw, former Secretary for Public Affairs of the US Bishops' Conference**

"The pro-life movement has made great strides in recent years because of Fr. Pavone. Abolishing Abortion is his road map to put an end to the holocaust of abortion. What could be more important than heeding his advice?" **Brent Bozell, Founder and President, Media Research Center**

"Abolishing Abortion is an excellent new resource for those interested in the connection between faith and living that faith in the public square. Those interested should at least include every believer, especially those engaged in grave moral matters such as abortion. Father Pavone lays out the duties of both the Church and the State in taking action and seeking justice for unborn children and their mothers. He calls Americans to their duty to protect our Founders vision for our country by fighting to protect the Life and Liberty of all Americans. As with other human rights injustices in our nation's history, it will take our generation's heroes to abolish abortion." **Marjorie Dannenfelser, President, Susan B. Anthony List**

"This book is a light in the darkness of the culture of death. It pierces the fog which the abortion industry, and those who aid and abet them, try to cast over our nation and over the Church. When you read Abolishing Abortion, you will come away not only saying, "No more excuses" but "what can I do to make a difference."" **Teresa Tomeo, Media Expert, Motivational Speaker, Best Selling Author, Syndicated Catholic Talk Show Host of Catholic Connection & The Catholic View for Women**

"It is obvious that the years of hard work by Fr. Pavone within the pro-life movement have paid off. This book helps every pro-lifer to connect his or her pro-life convictions to the actions that government officials and other leaders need to be taken in order to end abortion in America. This Book is a must read, not only for pro-lifers but for every American citizen." **Fr. Terry Gensemer, Director, CECForLife (Charismatic Episcopal Church)**

"Fr. Frank Pavone continues to be one of the most cogent, compassionate, articulate voices for unborn children. In *Abolishing Abortion*, he presents a clear and compelling case why abortion will become unthinkable and unavailable in our lifetimes...if we take the strong, purposeful steps he recommends. I pray we all take those steps, working together to end America's worst holocaust."  
**Brian Fisher, Co-Founder and President, Online for Life**

"I have been working with Fr. Frank since he came into the pro-life movement. I was in attendance at a meeting in NYC with Cardinal O'Connor and several other cardinals and bishops when Fr. Frank approached the microphone and announced that he was "with Priests for Life". Cardinal Bevilacqua's response was "in MY diocese ALL priests better be for life. That caused quite a response from the audience. Little did we know that this very young Fr. Pavone was going to show the world what that really meant! Fr. Frank is one of the few priests, that I know, whose only mission is to save the blessed God-given life that comes from our Creator. No exceptions, no excuses. Life once issued from our God must be protected and saved at all costs. That is Fr. Frank's position which I am honored to share and work for with him."  
**Denise F. Cocciolone, Founder/President, National Life Center**

"My people perish for lack of knowledge," says God through the prophet Hosea. In *Abolishing Abortion*, Fr. Frank has provided for us a solid blueprint and the knowledge pro-lifers of every denomination, age, and ethnicity need to restore the right to life of the unborn."  
**Astrid Bennett Gutierrez, President, Hispanics for Life**

"Mi pueblo perece por falta de conocimiento," dice Dios a través del profeta Oseas. En el libro "Abolviendo el Aborto," el Padre Frank Pavone nos provee una guía esencial, y el conocimiento que necesitamos los pro vida, no importa nuestra raza, edad o religión, para defender el derecho a vivir de los no-nacidos."  
**Astrid Bennett Gutiérrez, Presidente, Hispanos Pro Vida**

"The 20th Century abortion debate used women to promote the abortion agenda. Four decades later, the cries of women and their babies are screaming to get America's attention of the urgency for the protection for both women and their children. "*Standing up for women is a task for everyone, women and men alike*". Reverend Pavone's book is a winning strategy to "Abolish Abortion"."  
**Dorothy Wallis, Caring to Love Ministries**

"The revelations in Rev. Pavone's book *Abolishing Abortion* are welcome and long-awaited tools for the pro-life movement. His thorough research and documentation provide us with critical knowledge to be more effective in advocating for the lives of preborn children and their mothers. This book isn't just for Catholics. It's for pro-life advocates of all faiths."  
**Bradley Mattes, President, Life Issues Institute**

The United States Supreme Court's *Roe v. Wade* decision, the resulting 55 million abortions, and the strenuous efforts to protect the continuing availability of abortion have, to a great extent, deformed American public life. In this book, Father Frank Pavone, today's most articulate American witness for the dignity of the human person, exposes the faulty reasoning and habits of mind of that deformation, and it challenges the institutions that sustain that deformation. He does this so that one day abortion in America will be abolished -- as slavery in America was once abolished. Fr. Pavone's book educates, motivates, and activates the reader to be an authentic agent for love, for life.  
**Rev. Paul T. Stallworth, President and Editor, Taskforce of United Methodists on Abortion and Sexuality/Lifewatch**
