

Praise and Endorsements for Recall Abortion

“*Recall Abortion* will no doubt enlighten all readers about the facts of truth: that choosing death is not an exercise of one's human rights to privacy and the body, but quite the reverse: a violation of one's true physical and spiritual human nature, and worse still, the annihilation of another.”

Archbishop Vincenzo Paglia
President
Pontifical Council for the Family
Vatican City

“For decades I have been working to reverse this tragic decision that was made in my name. Janet Morana's recall effort might be the way to finally end the catastrophe of abortion. I am praying for her success.”

Norma McCorvey, “Jane Roe” in the Roe v. Wade decision

I just finished reading your book, *Recall Abortion*, from the moment I started, I had advised every woman I met to read it. You were able to explain to women the real industry behind abortion, how women have been lied to all these years, how manipulated they have been by presenting the killing of her own child as a right to be proud of. I would like to tell you that I have been trying to explain to everyone around me the same thing you explained but I had never had the right words nor the historical process in my hands, which now I have after reading your book. Your book has giving me the tools, strength and commitment to open the eyes of every woman and man that cross my path by recalling abortion. I don't know how to thank you for your book. – *Ann V.*

“*Recall Abortion*” will help put abortion right where it belongs; on a worldwide “Hall of Shame” episode and the top of the recall list.”

Teresa Tomeo, Syndicated Catholic Talk Show Host, Best Selling Catholic Author

“Janet has captured the reality of abortion from the women’s perspective – a view that has been missing in the abortion debate. We discuss a woman’s right to have an abortion but, until “Recall” no one followed up to see what impact that right has had.”

Georgette Forney, President Anglicans for Life, Co-founder of the Silent No More Awareness Campaign.

... my thoughts on your book. One word, FANTASTIC!! You covered all the issues with facts. Anyone reading this book could debate the abortion issue with ease. I was not aware of the wrongful life suit that is legal in California. I was shocked.. I liked "abortion is forever, there are no do-overs." We can use that in counseling. I learned a lot about rape and the rapist's rights. I liked all the references to back up your statements and info regarding the leaders in the pro-life movement in the back. I am recommending your book in everyone of my thank you letters to donors. I am having my education director read it and then onto Board members. I am also planning on putting it in our newsletter so all our readers will be aware of this excellent book. Sure hope you will be writing another one!! Blessings to you and all you do for His Precious little ones.

Nancy Corbett, Executive Director, Pregnancy Counseling Center, Mission Hills, CA

“Janet Morana delves into the many reasons why abortion should indeed be recalled. Her book enables you, the reader, to come along side Janet as she explores various aspects of so-called “reproductive choice”. In the process, she negates the arguments by pro-abortion activists. As a long-time veteran of the pro-life movement, she’s got a lot to say.”

Bradley Mattes, President, International Right to Life Federation

“I’ve known Janet Morana for a long time, and I know her to be a passionate and effective advocate for America’s unborn babies and their mothers. I highly recommend her book as a helpful tool to counter the rhetoric of radical pro-abortion activists.”

The late J.C. Willke, MD, Former President, Life Issues Institute

“*Recall Abortion* makes it clear that abortion not only kills the most innocent among us, but it also hurts women, it hurts men, it hurts families and it hurts society. It has been especially devastating to African-Americans. We are proud to join Janet Morana in demanding a recall of this murderous product called abortion.”

*Dr. Alveda C. King,
Civil Right for the Unborn Director, Priests for Life*

"After 40 years on the market, has abortion lived up to its promises? *Recall Abortion* provides a compelling case against the primary selling points for abortion."

*Wendy Wright, Former President and CEO, Concerned Women for America
Current position: Vice President for Government Relations and Communications
for the Catholic Family and Human Rights Institute (C-FAM)*

“In *Recall Abortion*, Janet Morana intertwines her personal experience with the powerful, riveting stories of other women and families caught in the lies and painful consequences of the “sexual revolution” of the 20th century. Documenting the tragic effects, over decades, of abortifacients and abortions, Janet convincingly demonstrates that we neither need nor want abortion, even in the “hard cases” of rape and incest, fetal anomalies, or “life of the mother.” We can do better!”

Margaret H. Hartshorn, Ph.D., President; Heartbeat International

“In *Recall Abortion*, Janet Morana asks, “Isn’t it time to demand a recall of abortion?” As a former Planned Parenthood clinic director, I can attest to the fact that abortion harms women and therefore can say that the answer to that question is a resounding “Yes.” This book will mobilize many to say “Yes” as well.”

Abby Brannam-Johnson

I've just finished reading the book (Recall Abortion).... It was as if Janet was inside my head saying things that I've been saying all along, but taking it to the next step with more research and facts to back it up. This book takes Lime 5 by Mark Crutcher and raises it to the next level....making it real and relevant to any place or situation in the country today. I try to convert pro-aborts with facts and figures all the time. I wish all pro-abort legislators and more would be forced to read this book to understand what lies and rationalizations they have bought into in the name of women's reproductive rights while ignoring the fact that they are supporting the killing of innocent human life.

Denise Leipold, Executive Director, Right to Life of Northeast Ohio and Life Education Fund
