

---

*Female:* A lot of people consider later 20 weeks.

*Respondent:* Affiliated Medical, how can I help you?

*Caller:* Yeah, I was wondering if I could schedule an abortion with you guys if I'm 20 weeks pregnant.

*Respondent:* I can schedule you an appointment and we can ultrasound you first, then go from there.

*Caller:* Oh, okay. Well, I was just wondering – so let's say that I am 20 weeks, which I'm pretty sure I'm 20 weeks exactly today. Am I still able to get the procedure even if I'm healthy and there's nothing wrong with the pregnancy?

*Respondent:* Yes.

*Caller:* Oh, okay. What is the law in Wisconsin regarding that, do you know?

*Respondent:* Yes. You would have to be under 21 weeks and six days.

*Caller:* But it's fine, like, if there's no abnormalities or anything, just like for any reason?

*Respondent:* No. Getting an abortion doesn't require that you have a fetal anomaly or an abnormality. It's really your choice.

*Caller:* Even after 20 weeks?

*Respondent:* Yes.
