President Donald Trump Campaign Rally in Henderson, Nevada - September 13, 2020

Thank you. Thank you. Wow. Wow. [Audience chants "USA"] Well, Thank you very much. Thank you very much. Thank you. Great to be with you and a very special hello, Nevada. Hello, Nevada. We love you. But I'm thrilled to be here with you in Henderson. Thousands of loyal, hardworking, great American patriots.

And 51 days from now we're going to win Nevada and we're going to win four more years in the White House. And after we win four more years, we'll ask for maybe another four or so. Well, thank you very much. You know, whenever I say that, I watch -- look at all that news back there. Look at all that fake news.

When I say that their heads explode. Our movement is pro-jobs, pro-worker, pro-police, and 100% pro-American. As we begin tonight, our thoughts are with the two sheriff's, deputies in Los Angeles who were fighting for their lives. What a vicious criminal walked up to their vehicle and shot them at point blank range.

Tonight, we send our love and our support to their families and we pray to God for their recovery. The radical left in America is waging open war on law enforcement. Hundreds of officers nationwide have been injured in left-wing riots and mobs. You see it. You see it all the time. Please, sit down, please.

Let's have a little fun. We got plenty of time. I mean here -- I mean, you know. What do we have? Football is boring as hell. That's just not the same, right. I don't know. It used to be said -- he would say, Hey, could you keep it away from a football game?" now they say, "Could you possibly do it during a football game?"

We have some free time. But during violent demonstrations in Las Vegas, a 29 year-old police officer, you know this very well, was deliberately shot in the head leaving the young, brave officer paralyzed yet Sleepy Joe Biden and his supporters continue their dangerous war on the police. They're putting the lives of our brave officers directly in harm's way at his convention.

He never even mentioned the words "law and order" never mentioned them once. Now, it's all of a sudden his balls are dropping like a rock and he started to say, "Well, we need law and order." and then he goes back into the basement for four days. What happens to this guy? I know what happens to him? He's shot.

That's what happened to him. Every once in a while the great Dana White -- Does anybody know Dana White? He's got some champions with him tonight. You know he's here. I'm going to introduce him, but he's got -- But every once in a while I'll ask him, "What happened to that guy?" He said, "Sir, he's been shot for the last long time, should've left a long time ago." That's Joe Biden, Joe Biden.

He's shot. And everybody knows it. And you know what they ought to be ashamed because they do interviews with him, they give him the questions, and they let him read the answer from a teleprompter and that's the fake news. It is. How about the other day? Could you -- move that a little bit closer. See these things?

Move it a little -- I must tell you, a great peril, I use them seldom, but those are the times we have the best fun too, I will say. And that's actually when we learn the most. For the entire summer, Biden was silent as left-wing mobs assaulted police officers, when Biden was far-left supporters set fire to police cars and precinct stations, courthouses.

Joe Biden called them peaceful protesters, right? They call them peaceful protests. And you know when we go to these radical-left places that are having problems, because everyone look at the top 10, you go back, go top 20, top 30, take a look, democrat-run, radical-left wing Democrat usually run, not Republican run, Democrat run and we go back and we take a look, we want to give them help.

They don't want help, but when they do ask for help and when they do, we go in. Like Minneapolis, the National Guard went in. Took 35 minutes to quell a situation that went on for two weeks. They knew we were going in to Seattle. We told them we're going in tomorrow morning. And so they sent him in. They didn't want that to happen and we let the protesters know or whatever you come, they're really anarchists, they're not protestors.

So we let the anarchists know that we were going in with approximately 10,000 very tough people and they immediately raised their hands and the Seattle police, who by the way could do a great job if they were let to do their job but they're not, they're not. And as you know in Portland, the other day we had to send in the U.S. Marshals, a man who's a bad guy, bad guy, shot somebody right in the middle of the street, who they say was a very fine young man shot him, killed him.

Got -- just shot him like he was on television. Two and a half days, nothing happened. I said, "What's going on?" We send in the U.S. Marshals." It was taken care of in 15 minutes. OK, 15 minutes. When asked if he would cut police funding, Sleepy Joe said, "Absolutely. Yes, I would." Now he's trying to change his mind.

Do you ever see a guy, he change his mind on fracking? OK. "There will be no fracking." You know that. He went all through the debates. He doesn't even know what fracking is, I guarantee you. He was told to say that by Berni and the radical left. By the way, how bad is she? She is the worst. You know we're going to have a woman president someday, not going to be her, not going to be her.

And that's no way to attain the office. We got in there because Sleepy Joe couldn't handle it anymore. You know Joe is bad in primetime. See, the reason I can talk so badly about him, because he did an ad where he had me standing over the grave and the graves of our fallen heroes from many years ago and they said, and nobody loves the military more.

Look what I've done for them at \$2.5 trillion. And in the ad they have me saying horrible things in front of other people. Nobody would have put up with that. It was totally -- it's called disinformation. They make up a total lie. They put it out, then they do ads. So once he did that I said, "Now I really -- look -- It's OK.

It's OK" Because now the gloves are off. I can say that this man is totally unfit to be president. Up here, he's totally unfit. He can't be your president. You know I've gotten to know President Xi of China, I've gotten to know President Putin of Russia and by the way, getting along with them, is good. Well, with China, I must tell you, got a real problem with China.

What they did with us, we can never forget that we made a great trade deal. The ink wasn't dry when the plague came in from China. They stopped it from going into China, but they didn't stop it from going in to our country, Europe, and the rest of the world. OK, they could have done that. But you see, I deal with all of these people and they don't have the kind of mental problem that Sleepy Joe has.

They're very sharp. Kim Jong-un. Kim Jong-un doesn't know about the problems that Joe has. We need very sharp people. I'm sorry. Joe is not qualified for this position. Joe calls for abolishing cash bail and closing your prisons. He wants to close prisons and even called law enforcement the enemy recently.

You so that? The enemy. Until his polls started dropping and then all of a sudden he said, "No, we loved law enforcement." I think I've gotten every major law enforcement group in the country, right. I even got -- you saw recently, I got New York's finest and they are New York's finest, but they're not allowed to do their job they're not allowed.

We have a radical-left mayor who has no clue. He has no clue what's happening to that poor city. I love that city. What's happening to that city, 300% up. Look, 300% in certain, very bad crimes, New York. There's no reason for this. And we have the greatest police, they're great. New York's finest. They endorsed me.

Chicago, Fraternal Order of Police, Chicago endorsed me. Oklahoma endorsed me. Texas endorsed me. Florida endorsed me. Every place endorsed me. And if you think it's easy for New York and Chicago in these different places, Ohio endorsed me. If you think it's easy for these guys, they never endorse. New York, they said they cannot remember ever having endorsed a presidential candidate.

They endorsed me and they're going against their radical-left culture that's destroying the city, so I was very honored. But how about Chicago? Do you think it's easy for these great police in Chicago to endorse me? It's not easy. But they felt that they had an obligation to do it. So, I'm just -- it just happened, I'm just very honored by it.

And Biden's entire police crusade must stop. It's got to stop. It's got to stop now. Furthermore, the corporations, these poor, stupid people that run the -- you know they get paid a lot of money, they're weak, ineffective people, let's face it. They're funding, anti-police organizations and other organizations that are -- it's so embarrassing and I don't mean for a little, like, they gave \$100 million and 250 mi -- You're talking about serious money, you're talking about serious money, and that money is not used for good reasons, and these stupid corporations and they'll be the first to go if the radical left ever took.

They'd throw those guys out like they were nothing. If they were lucky, they'd just be thrown out, it would probably be a lot rougher than that. These people don't know what they're getting into. But instead of giving money, they should give money to the families of the crime victims in the fallen officers, that's what they should do.

So, in the Republican Party, we know that police officers are not villains, but the heroes who risked their lives to keep us safe. And they guard -- You know, the thing that's incredible, I know so many police, they're so good. One bad apple and they're on for months, one bad apple, they go on for months, the thousands and tens of thousands of good things, nobody talks about it.

These are great people that have done a great job and we have to support our law enforcement. So Biden wants to appease domestic terrorists, and my plan is to arrest domestic terrorists, OK. And we

also believe that if you murder a police officer, you should receive the death penalty and that's something that's very important. [Audience chants "USA"] You saw a video of that animal that went up to the car?

Did everybody see that? This animal, this animal goes up to the car to -- I'm suspecting fine people. There was about -- Fine people, I mean, they're in very grave condition as you know. Fine people. He's an animal. And I called him an animal, and I was criticized by people calling him an animal. They said he's a human being, he's not a human being, he's an animal.

He's not a human being. Joe Biden opposes the death penalty, even for cops who -- I mean, look, you have to see, even for these cop killers who go around the predators, they murder children, people like the Boston bomber. He opposes the death penalty for the Boston bomber. He wants to give prisoners a vote.

He wants to have the Boston bomber be able to vote. I don't think so. I don't think so. I don't think so. You know who started that? Bernie Sanders, Crazy Bernie. He wants to have -- Crazy Bernie says no, no, they have to vote, so they asked him. Well, does that mean every -- That means breeds everybody that's in prison should be entitled to a vote, right.

So they actually said, "Well what is that? What about the Boston bomber, should he be entitled?" and Bernie goes, "Ah, yeah, I guess, yeah. He should be entitled." Bernie is crazy, but you know the fact is that we got a lot of Bernie votes four years ago, because Bernie is right about one thing: trade. Because all of these countries, friend and foe, they rip off the United States.

We have made so many great trade deals and you see it, the USMCA, we got rid of NAFTA. So many -- but Biden is too weak to be president and he's not a smart person and by the way, he wasn't smart 25 years ago, everybody know it. Now, we don't even have to discuss the matter. But I was going to say, when he put that ad up, we told him to take it down.

When he put that ad up that dishonored our fallen heroes. They are great, great heroes of mine, of yours, of everybody. I know really bad people. No bad person, the worst person I know, I saw -- I know some beauties from New York. I know some developers in New York, actually. Nobody would say what they said.

They made it up. It was a made up statement and they put it up in the form of an ad from a third-rate magazine whose best friend is Obama. Who by the way -- who by the way -- who by the way, got caught spying on my campaign. He got caught. We caught him cold. We have him caught. Now, let's see what happens.

Now, the Republicans, you know it's interesting, we have much better policy, but the Republicans they don't fight like Colby. You know, Colby is -- you're going to say hello to Colby. They don't fight like Colby, then don't fight to win. They -- they've -- they've just done -- With better policy, but they're not not they don't have that vicious streak.

If this were reversed, if this were reversed, they would be in jail for two years already, and it would be for a 50-year term for treason. That's what it would be. OK. But Biden is too scared to stand up to the crazy socialists and never will, they'll never have the strength, and he's going downhill fast.

It's going to be very interesting. And you know I called for a drug test, because you know what, I want a drug test, because we don't want to have a situation like we could have with this guy. I watched him in debates with the other 24 lunatics, right, and it was so bad. No, he was so bad. You know maybe I'll win because they don't like me.

They don't like my personality, but I hate to say it, I'm what you need. I'm what you need. It's true. [Audience shouts "We love you"] But if Biden ever did win, he would surrender your country to the mob. You know that and he will have nothing to do with it. It's not him. I mean, he's being -- he's going to be pushed around.

And she's by the way, just so you know what you're going to get, she's considered far more liberal than Bernie Sanders. How about that? That's what you're going to have. I don't think your state is into that. Unlike Biden, I'll always stand with the heroes of law enforcement and I'm deeply honored to have gotten all of those endorsements, that to me is a really big deal.

That to me is really a big deal and I just want to thank all of them, including the National Troopers Association and Coalition, just came in. We also received the endorsement total and complete endorsement from the Public Safety Alliance of Nevada and the Las Vegas Police Protective Association from Nevada.

And I want to thank for that Steve Grammys, who is with us tonight. Where's Steve? Was Steve here? Steve. Thank you. Thank you. That's a big deal. Make sure they get out and vote, Steve, because they're playing around with the ballots, OK. You know your governor. So we had many sites, by the way. All exterior sites, all outside.

Today you'll hear these phonies back there. We'll look at that. Now, today you're going to hear them. They'll say, "Oh, it wasn't it --" well, the reason it was we had five sites all outside sites like last night, tremendous room and a great gentleman who owns this building said, "You know what, what they're doing is really unfair.

You can use my building." Don, I want to thank you. I want to thank you. This is the most important election in the history of our country. At no time before has there been a clearer choice between two parties, two visions, two philosophies, two agendas for the future. Joe Biden spent the last 47 years selling out America.

Look at what he's done. Everything he's done was wrong. He always voted the wrong way. Even his secretary of defense, his secretary of state, they said he always voted the wrong way. He was off shoring jobs, throwing open your borders, depleting our military, and sacrificing your children's future to China and other faraway lands.

I've spent the last four -- [Inaudible] Only in Nevada can you have it. I would never say, so what did you say this? OK. This way I can't get in trouble. I've spent the last four years bringing jobs back to America, securing our borders, rebuilding our military, and standing up to China, like no other president has ever done.

If Biden wins, China wins. If Biden wins, the mob wins. If Biden wins, the rioters and anarchists and -- Look, you see what's going on. The arsonists and flag burners. How about the flag burning? I would love

-- I would love to have a law -- This is so sad what's going on. When I see the American flag burn, I get so angry.

I get so angry, I would love to have a law, it has to go through a big process. You burn the flag, you go to jail for one year. I would love to see it. [Audience chants "USA"] If I were a congressman or a senator, I'd be in there with that one.

You know this freedom of speech. That's not freedom of speech. You burn the flag, you should go to jail for one year. I really mean that. They'll say, "Oh, it's horrible he's against free speech." No, no. We're not. We're not against free speech. But I'm running for re-election to bring back the tremendous prosperity that we enjoyed before the plague came in and it's happening very fast.

And I'm running for your state. I love this state. You know I put a lot of money in this state and it's been a great investment and we want to keep this state strong. Not for that reason, by the way, for other reasons, because this is a great place. You have a governor right now is a political hack. We want to put violent criminals behind bars and tell your governor to open up your state, by the way.

Open up your state. You know, just say you know, these shut downs, we did the right thing. We had the greatest economy in the history of the world. They came in, they saw -- we were all seeing what was happening, we closed up, I mean, you know how that -- you're presiding over the greatest economy in history and a group of very smart people walk in and say, "Sir, we have to close it." and we did the right thing.

We closed it. Well, actually, he didn't think we should close it yet, but later on he said we did the right thing. We closed it, we closed it. We saved millions of lives. If we wouldn't have closed it, we would have been talking two and a half or three million word. 180, it's far too much. But we would have -- we would have been talking about -- It would have been unacceptable, unsustainable.

It would have been so bad. Think of it. We're 180,000. Other countries are doing terribly. Did you see the statistics of us compared to other countries? Us compared to Europe? Us compared -- We have done an incredible job. We get absolutely no credit for the job we've done and I don't want it myself, but I wanted for the ad rolls and the generals and Mike Pence.

And Joe Biden was against it. Remember he was totally against closing. He said, "Oh, he's xenophobic." I'm xenophobic. I wanted it closed and nobody else did. At that time, nobody else did. I was way early. You know they say, "He didn't act fast." I was months early. Nancy Pelosi was a month and a half later saying, "Come to Chinatown.

Let's come to Chinatown." [Audience Boos] And sleepy Joe was -- Totally. He thought what I was doing was terrible then all of a sudden now I see him saying, "He should have closed it earlier. This guy. You know the great -- the great thing about the age in which we live? It's all down on tape, you know it's all down.

I've got a reel on him we call it. We call it Biden best. You've got to hear this, but we want to ensure the future of America, not the future of China and other countries, because if we win, America wins and it's all about America first. You know you've had presidents, they never put America first, they didn't put America first.

They didn't take care of our country, but we're taking care of our country now. Joe Biden cannot lead our country because he really doesn't believe truly in our country, but I've sort of that -- I think that's a very strong statement. I don't think he has a clue, I'll be honest. The people that push him around don't believe in our country because he agreed to a manifesto with Crazy Bernie, right?

It's called a manifesto. You know why it's called a manifesto? Because this is beyond socialism. This is a word that starts with a C, not an S, that's where they're coming from. That's what they're coming from. At Biden's convention, they decried America wicked and they were saying it's wicked sinful. It's destined for a fate of doom and despair.

That was, by the way, that was the most. That was the most depressing convention. We had a great convention. We had a great convention. They actually said America wasn't great. They actually said that America was never great. You know who said that? Cuomo, the Governor of New York. [Audience Boos] He said America wasn't great.

I don't know if he's going to get away with that one. Well, that's going to -- that's going to haunt him. That's going to haunt him. America wasn't great, him and his brother Fredo. Do you ever watch Fredo? His ratings aren't very good, so you probably don't. But we know the truth, America is the most exceptional nation on earth and our destiny is blessed by God. [Audience chants "USA"] We love this nation with all of our heart and soul and we will always take care of our nation.

You know, we have a little expression, make America great again, that's what's happened and you know, we had it done. Now I say make America great again, again, comma. I go comma again and that's what we're doing at a record clip. They've never had a clip like this with the jobs and everything else. You see the numbers.

On November 3rd, Nevada will decide whether we will quickly return to record prosperity and we're doing it. We're going to have a tremendous year next year or whether we will allow Joe Biden and the group of handlers to impose a \$4 trillion tax hike. [Audience Boos] Ban American energy, destroy our suburbs, demolish our Second Amendment, and indoctrinate your children with a poisonous anti-American lie. [Audience chants "USA"] Yeah, get him out of here would you, please. [Audience Boos] [Audience chants "USA"] Under my leadership, we built the greatest economy in the world, he's going home to mom.

And now, we're doing it again. We're developing a vaccine in record time. The other administration would have been years and we're almost there. It's going to be announced very soon. We'll be ready before the end of the year and we will very easily defeat the China virus. That's what's happening and we're already making that turn.

We're making that round beautiful last turn, but it should have never happened. China should have never let that happen. They should have stopped it in China. Under my administration, before the virus, we quickly achieved the lowest unemployment rate in Nevada's history and we'll soon be there again. You see what's happening.

A guy like Biden, would totally eradicate Nevada's economy. He would make it impossible for you to compete and he's already said if the doctor suggested that he would shut down the country again. We're not shutting down our country. [Audience Boos] A shutdown will destroy the lives and dreams of tens of millions of Americans.

United States Supreme Court Department of Homeland Security Department of Justice Second Amendment Supreme Court justices

Look, the Americans, you know on the other side, if you look at these shutdowns, and you are living through it right now. You know, there aren't many states that are shut down. They're all Democrats, North Carolina, your state, but North Carolina we're not -- you know, you take a look at North Carolina, Pennsylvania shut down, every one of them that is shut down are doing not well.

They're not doing well and they all have Democrat Governors. And you know, when you look at the suicide rates, when you look at all of the suicide, all of the domestic violence, the drugs, all of the problems, we can't have it, we can't have it. Open up your state. You've got to open up your state. It's all political, it's all political.

It's all political. On November 4th, they'll announce we're going to open up the states. They're only doing it to affect your November 3rd grade election. Most important election. Biden will always do whatever the radical left demands and if elected, his radical supporters won't just be causing mayhem on the streets.

They'll be running the Department of Justice, the Department of Homeland Security, and by the way, the United States Supreme Court, and we will have a very different country. You know, the next president probably will have anywhere one, two, three, or four Supreme Court justices. So if you want your Second Amendment, if you want life, if you want so many other things, even having to do with your military, even having to do your vets.

Kimberly Guilfoyle Nevada Republican Party 100 percent former Attorney General Adam Laxalt tremendous spirit Michael

If you want things, if you want you've got to -- you've got to have the court because you know they'll last for 25, 30, 40 years. They put on this young people and they stay a long time. Our country will never be the same, we'll never be able to recover from it. So you've got to get out on November 3rd or early voting.

You've got to get out and vote and you could send your ballot and then you have to check that your ballots counted because they might not count your ballot in this state. They may not count your ballot, but we're looking to save and we're going to save America. We're not going to let that happen. So we're joined tonight by two terrific Congressional candidates that have been just incredible in the job they've done.

John -- you see it. I mean, you've seen it all the way the job they've done in their campaign. They beat people that were very good, very talented, great politicians, and they won. Dan? Where is he? Dan Rodimer, Dan Rodimer, Dan Rodimer, and we're with you all the way. Dan and Jim Marchant. Jim, Thank you very much.

Thank you, Jim. So we're backing you all the way. You've got to get them in. We need the -- we will take back the House. You know why? Because people cannot stand Nancy Pelosi. They don't like Nancy Pelosi. Even the woman that owns the beauty parlor turned her in. Can you believe that? Nancy Pelosi is a customer.

She turned her in, she thought it was disgraceful, but that's what we're dealing with, a bunch of phonies. But you guys, we have -- we have you back 100%. Michael, you make sure, right. I also want to introduce and thank -- he's done a fantastic job, Nevada Republican Party Chairman, Michael McDonald. And a friend of mine, thank you, Michael, your former Attorney General, Adam Laxalt.

And a person with tremendous spirit and personality to put it mildly, she's tough and she's -- but she's very kind. She's a great person, Kimberly Guilfoyle. Thank you, Kimberly. Thank you. Thank you, Kimberly. The owner of the Chicago Cubs and he's in first place, so he's very happy. The RNC Finance Chairman, Todd Ricketts.

Where's Todd? Todd, thank you. Great. Go win that pennant, Tood. Win the pennant. One of the best people ever to work for me in government. He's tough he's smart. He can be vicious, but he's just fair more than anything else, but he is a talented guy with tremendous energy and tremendous brainpower, Rick Grenell.

Thank you, Rick. And here he is again because they're going to try and find out, man, what's this guy manufacturing? You know, there's a manufacturing building and outside 25,000 to 30,000 people. Everyone would say what the hell is he manufacturing? Maybe he's manufacturing Trump. I don't know. He's manufacturing something pretty good.

They're going to -- they're going to -- boy they're going to be giving you a lot. But again, Don, thank you very much. Don Ayer. Thank you, Don. Thank you, Don. Also, a Las Vegas legend, Rick Harrison, Rick. Thank you, Rick. You are a legend. Great job you've done, great job you've done. A friend of mine for a long time.

You know, years ago he was looking for a place. Can I tell the story just quickly? Do you mind? He was looking for a place and they said, well, that sport's never going to make it. It's too violent. They just don't know how violent the American people are. Do they? They -- they never quite figured that out.

No, they said, no, it'll never make it. There's nobody like this guy, I'm telling you. I always say it's a great sport. Without him, I don't know what they'd do. I don't know if it could -- I don't know if anything would make it. He could do anything. He is so smart, so tough, so cunning. He's been a friend of mine for a long time.

I've been a friend of his, but I gave him a place a long time ago and all I know is just like we have outside, we had lines. I said what the hell's going on here Dana? This place is packed, right? We were packed with thousands of people they couldn't get in and I was so nice. I said let's do it again, Dana, please and we did it again and again and again and it became the UFC and he sold it and has a big chunk of it.

But he got \$4 billion when he sold it \$4 billion. That's not too bad, that's not too bad, Dana. But he really is, he's an incredible guy and you know, he also loves his fighters. He wants to take care of his fighters that he brought some of them along with the best, but I want to introduce Dana White. Dana, please.

Stand up. And Dana brought along a few of his friends and these are not people you want to pick a fight with. Because under those beautiful suits are a lot of muscle and a lot of power, a lot -- a lot of genius for fighting and for other things, but a lot of genius under those suits, a few members of the UFC community.

So here's a man who's been he used to walk into that ring and he still does and he's as good as there is in the world, No. 1 in the world. You don't want to pick a fight with him at a bar. Let's say you had a fight and you happen to meet Colby Covington. You say what's your name? And he said my name is Colby Covington.

And you know, the first time I saw Covington -- Colby he walks into the ring. No, he wasn't fighting, but he walked in with that same hat that you're wearing. It said keep America great, it says, Make America -- he doesn't care as long as it has Trump on it some place, he doesn't care. He doesn't discriminate, but this was the same day that we had our conservative reporter beat to hell by that wise guy who's now in big trouble for doing what he did.

And then, he walks in wearing the hat, right? Keep America great and he wears the hat and he's going like this because this was a big story. You remember what they did to that guy, conservative reporter, not a fighter. He wasn't a fighter, if -- and it was 10 people against one. Now, if we had 10 people against that one, those 10 people would be in serious trouble.

They said what the hell, but I'd like to introduce, Colby Covington, great fighter. Great, great, fighter, incredible. He is a great fighter. Three months ago, I saw him fight a guy, he looked like it would be impossible to beat. I never saw muscles. He had muscles on muscles on muscles and Colby's a very fit guy and you know fantastic, but he didn't look quite the same.

It wasn't even a contest. It went a few rounds and it was like I couldn't believe what you did. He took them apart so easily. It was like an easy day at the office, so you have to explain that to me some day Colby, but we love you, man. You're with us and we're with you. Another great, great champion, another great champion, Henry Cejudo, who is one of the best in the world and Henry, please stand, please.

Henry is -- and you won the championship twice, right, twice. He won twice. He's, uh, don't mess with him. Don't mess with him and his brother Alonzo is here, Alonzo Cruz. Thank you very much Alonzo. Thank you. Thank you and Alonzo doesn't mess with Henry. He learned that a long time ago. So one of the best fighters in the world and he's got a tremendous fight coming up against.

I guess the number one rated pound for pound fighter Justin Gaethje. Please, stand up, Justin. Justin Gaethje. Thank you and you feel good about that fight? He said he's going to knock him out. Well, we're going to be watching. It's right before the election, but I think I'm going to be watching, OK. I'll be watching.

You better believe it. That's going to be an incredible fight. Good luck, good luck, Justin. Great fighter and also he's a great guy, one of the best. Thank you very much. These are great people that they have so many people at the UFC and they've been big fans of us. They love our country, they love our country.

So, you know, and we love them and nobody like our Dana. Thank you, Dana, very much. Great honor. Thank you, man. Tonight, we're also praying for everyone throughout the West affected by the devastating wildfires. We want really forest management. We want forest management. My administration is closely coordinating with the state and local leaders with the Governor and we thank

the more than 28,000 firefighters and first responders courageously braving the danger and like, and I'm going there tomorrow.

I'll be going to California tomorrow. We have meetings with FEMA and all of the different people. Now, it'll be -- it'll be amazing to see. Its, uh, like the biggest we've ever had. It's crazy, it's crazy what's going on. Thousands and thousands and thousands of acres, it's crazy. So we're going to be there tomorrow.

We'll be with the Governor. We're also going to various other places. We have Washington also is in big trouble in Oregon. I spoke with the Governor of Oregon and they're having -- they've never had anything like it. And of course, they also have a place called Portland and we will put that fire out. Just tell us to put it out Governor.

That fire we'll put out. That's a much easier fire to put out. It would take us less than half an hour. We've spent the last four years, reversing the damage done by Joe Biden and all of the damage that him and his thought process has inflicted over a 47-year period. We passed record-setting tax cuts and record-setting regulation cuts.

We achieved American energy independence. Nobody thought it was possible. When Biden pledged to abolish the production of American oil and shale and clean coal and natural gas, which is very clean, and he wanted to ban fracking, we said, no, we're not doing that. For 47 years, Biden crushed the dreams of American workers to enrich foreign countries.

That's what happened. Look, he says he's going to change, he's been there for 47 years and you know that he's been there until three and a half years ago. So it's not like he hasn't done it for 20 -- he was there recently, they didn't do it. And you don't change and you always go back to the first statement and his first statement was anti-religion.

His first statement was anti-fracking, anti-energy. His first statement was anti- all of the things. But it was really anti-gun, anti-Second Amendment. He even put this whack job. He even put Beto O'Rourke, Beto. [Audience Boos] They said Beto is Spanish. I said how does the Beto go with the O'Rourke? They said, well, he wanted the Spanish vote, so his father calls him Beto.

What's that? Does that sound a little bit phony? 'Cause we had a poll today and Hispanics are at 52% for Trump and 40-something for them. Never happened before, never happened before. They've never seen that before. I love the Hispanics. But the Democrats championed NAFTA, TPP, the horrible South Korea deal, South Korea deal.

Hillary Clinton, crooked Hillary. She said we will create 250,000 jobs. I say it all the time, we will do this deal with South Korea. We will create 250,000 and she was right, but they were create Korea not for us. We didn't get anything and we renegotiated [Audio gap] and he was there for China's entry into the World Trade Organization.

Earlier this year, I kept my promise to American workers when we ended the NAFTA nightmare and we signed the brand new U.S.-Mexico-Canada agreement into law. A great deal for us, that's a great deal. And by the way, our stock market is setting records, I hate to say in the middle of a pandemic. But hopefully, as we round that final turn on the pandemic, we're setting records with the stock market.

Your 401ks are doing very well. Your stocks are doing very well. And you know what, if something would happen where he'd get in and there's a headwind, believe it or not, that stock market would be much

higher, but there's a headwind on the possibility, OK? Everything's a possibility. There's a headwind, but I'll tell you what, if he ever got in, you would have a market crash, the likes of which this country has never seen before.

Just remember it. Just remember it because what they want to do is crazy. The Green New Deal, \$100 trillion, the Green New Deal [Audience Boos] that's more money than we could make in a thousand years, \$100 trillion. We don't like that building the windows are too big. What do you do? Rip it down, well, good.

That sounds good. I saved the U.S. auto industry by withdrawing from the last administration's job-killing catastrophe, the Trans-Pacific Partnership and we're building many auto plants you know that. Some here, but we're building many auto plants in Michigan, many auto plants in Michigan. If we don't win Michigan after all those auto plants and I don't know.

But it's been tough, but we won it last time and we're showing a poll that just came out that we're two points up in Michigan. That's very good. That's very good. I took the toughest ever action to stand up to China's rampant theft of American jobs. Biden's agenda is made in China. My agenda is made in the USA.

That's what it is. [Audience chants "USA"] For the last four years, I've been delivering for our incredible Hispanic community. I'm fighting for school choice, safe neighborhoods, low taxes, low regulations on all Hispanic-owned small business, and they are great businesspeople and they understood that. They understood that.

They understood it all. And by the way, there's nobody that knows our Southern border better than, I call them the Hispanics. I call them Latino, you know, I say what do you prefer? It's -- it's very interesting. Some say call us Latino, others say call us Hispanic, others say call us whatever the hell you want, we love you, we love you.

But our Hispanic population knows our Southern border better than anybody else and they don't want criminals coming across. They want people to come across, but they want them to come across legally and we have the strongest Southern border now [Audio gap] . The Democrats and Biden would be a disaster for Hispanic Americans.

He's pledged to wage attacks on Catholic organizations like the Little Sisters of the Poor. [Audience Boos] They're fighting them. He supports taxpayer-funded extreme late-term abortion. [Audience Boos] Extreme late-term. He would allow left-wing anarchists to burn down your businesses. He would hand over your jobs to China and your country to the socialists and beyond the socialists. [Audience Boos] The Democrat Party also continues to attack our incredible border agents, more than half of whom happen to be Hispanic Americans, OK, and they're great.

And I want to thank, not only law enforcement, but a big part of law enforcement or the Border Patrol and the ICE agents. They're incredible. You know the ICE agents, Dana could sign some of them up. The ICE agents they go into like a pack, they go into pack, they go into a pack of MS-13 fighters. These are criminals and they do it like it's routine.

You don't want that job. Nobody -- I don't see any of the people, male or female sitting in this audience that wants that job, ICE. They take out thousands and thousands of MS-13 killers a year and bring them the hell back out of our country. All around our country, our communities are protected by Hispanic-

American heroes in law enforcement and they deserve unwavering gratitude and I want to just thank you all.

I want to thank you all. With us tonight, our members of the National Border Patrol Council and they are great friends of ours. I want to just thank them, the official union of our nation's incredible Border Patrol agents, and you know what? They're not supposed to do it, but they did it anyway. They endorsed me.

I want to thank Brandon Judd, who's here and Art Del Cueto. Art, where's Brandon? Where's my Brandon? Where's Brandon? Oh, look at these guys, look, they ready. They're ready to fight. [Audience shouts "Thank you"] Hey, Brandon, Art, so pick out your toughest guy. I want to see whether or not he can take Colby in a fight.

Don't do it. Thank you very much. Thanks, fellas. We appreciate it very much. Great job, too. My administration has achieved the most secure border in American history. We ended catch and release. We stopped asylum fraud. We've deported 20,000 gang members and over half a million criminal aliens. We built over 320 miles as of today border wall and we're adding 10 new miles every single week.

We're doing about 10 miles a week and we'll be finished with the wall very shortly. And you think that was an easy one? That was not an easy one. We were fought. You know, two things and I say it. Two things that never get old. Remember the Democrats are saying a wall won't work. Oh, really? Tell me about it.

The wall works, that's one of the reasons our numbers are so good. But two things that will never get old, never. You know what they are? A wall and a wheel, a wall and a wheel, never get old. A wall -- you know, I see so many things and I see all these businesses. Computers, you come up with a new chip.

You come up with a new computer. You come up with a new laptop, three weeks later, you buy it and three weeks later it's obsolete. But a wall will never be obsolete and a wheel will never be obsolete. You come back in a thousand years, a wall and a wheel. Thanks to our powerful new security measures, we've doubled the amount of meth seized at the border over the last year.

We've doubled. We invest in \$2.5 trillion in the U.S. military and launched the first new branch of the U.S. armed forces in 75 years, the Space Force. We passed VA Choice and VA Accountability, and I've accomplished more in 47 months than Joe Biden did in 47 years. That's true. That's true. I withdrew from the last administration's disastrous Iran Nuclear Deal.

So good for Israel. So good that we did that. They paid \$150 billion, \$1.8 billion in cash. I think Dana White could have made a slightly better deal than that. You know what we got for it? Nothing. We've got nothing. We killed the founder and leader of ISIS, al-Baghdadi. We eliminated the No. 1 terrorist in the world and we're talking over a 50-year period.

No. 1 in the world, the mass murderer of American troops and many other people throughout the world Qasem Soleimani is dead. I kept my promise, recognize the true capital of Israel, and opened the American embassy in Jerusalem. I recognized Israeli sovereignty over the Golan Heights and we've achieved the two historic peace deals in the Middle East in just the last month, two, two.

Over 75 years, they did two. We did two in a month and many other countries are coming in. The United Arab Emirates and Bahrain have both agreed to normalize relations with Israel. Nobody thought this was possible. In fact, you didn't hear it because they don't report this. You know, they just don't want to report it, but we -- they gave -- they nominated your President twice last week on two different subject for a Nobel Prize, but -- but the fake news media didn't cover it.

So that's it. [Audience Boos] Biden got it. Remember. Well, OK, remember when -- when our great President, right? Barack Hussein Obama. [Audience Boos] He got like immediately and they said why did you get it? He was unable to explain, you remember? Why did you get it? Because it was like he just became President.

They said we're going to nominate Barack Hussein Obama for the Nobel Peace Award, right? And what happened? And what happened? And then Biden said what about me? They said who the hell is he, this guy? What the hell has he done? But it's true, Obama got it for no reason whatsoever. Rick, you know that? No reason whatsoever.

Joe Biden brought you only endless wars, I'm bringing you peace and I'm bringing our troops back home. They're all coming home. Endless Wars. Biden voted for the Iraq war. He opposed the mission to take out Osama bin Laden. He opposed the killing of Soleimani. He oversaw the rise of ISIS and he cheered the rise of China as a positive development for America and the world. [Audience Boos] When I banned China for coming in highly infected, he said it was hysterical and xenophobic.

If we had listened to Joe hundreds of thousands more Americans would have died just by that one move alone. When the -- thank you. I agree, actually. I don't think I'm allowed to say it. When the virus arrived, we launched the largest national mobilization since World War II. We're delivering lifesaving therapies.

We've achieved among the lowest case fatality rates of any major country anywhere in the world. You don't hear this. Europe's excess mortality rate is 24% higher than the US and despite their very putative lockdowns, they're once again seeing very large spikes in cases unfortunately. The United States has experienced the smallest contraction of any major Western nation and the fastest recovery by far.

Who's going to do that? And there's a reason for it. Through our historic relief programs, we've saved more than half a million Nevada jobs and over 42,000 Nevada businesses. We've saved 42,000 of your businesses. Biden would terminate this comeback and put your families at great danger. He would reimpose the federal regulations, destroy your Social Security, destroy protracted -- and you know, he's he's looking at doing all of this stuff.

He will destroy protections for pre-existing conditions and decimate your 401ks, your retirement system, your stocks. He'll establish a national sanctuary city policy for criminal illegal aliens. He wants to cut your vet facilities in half, go to socialized healthcare and end 180 million Americans' private healthcare plans, which they love.

Biden pledges to oppose school choice and he stated that if elected, charter schools are gone and charter schools have been great. [Audience Boos] In this second term, I'll provide school choice to every parent in America. A vote for Republicans is a vote for safe communities, great jobs, a limitless future for all Americans.

It's really a vote for the American dream. That's what it is. It's the American dream versus the American nightmare. Instead of letting Washington change us, despite all that we've been through, we are changing Washington. So in concluding this wonderful afternoon, and again Don, thank you very much. But in concluding this wonderful afternoon and if the Governor comes after you, which he shouldn't be doing, I'll be with you all the way.

I'll be with you all the way. Don't worry about it. Over the next four years, we'll be making America into the manufacturing superpower of the world and we'll end our reliance on China once and for all. We will make our medical supplies right here in the United States. We will rapidly return to full employment, soaring economies, and record prosperity.

We will expand opportunity zones and we will continue cutting taxes and regulations at a level that nobody has ever seen before. We will hire more police, increased penalties for assaults on law enforcement, surge federal prosecutors into high-crime communities, and we'll be watching the ballots very closely also, by the way.

And we will ban sanctuary cities, we will appoint prosecutors, judges, and justices who believe in enforcing the law, not in enforcing their own agenda. We will ensure equal justice for citizens of every race, color, religion, and creed. We will defend the dignity of work and the sanctity of life. We will uphold religious liberty, free speech, and the right to keep and bear arms.

We will strike down terrorists who threaten our citizens and we will keep America out of these endless ridiculous foreign wars. They're all coming back. We will maintain America's unrivaled military might and we will ensure peace through strength, \$2.5 trillion and the strongest military we've ever had, beautiful brand new equipment.

When I took it over it was totally depleted our military. We have the greatest equipment that any military is ever even conceived of. Things that people have no idea what we have and let's keep it that way. We will end surprise medical billing, require price transparency, already signed. Further reduce health insurance premiums and the costs of prescription drugs will be dropping like a rock very soon.

The drug companies do not like me too much. It's a favored nations clause I signed. We will strongly protect Medicare and your Social Security will be totally secure, and we will always protect patients with preexisting conditions. America will land the first woman in the moon and the United States will be the first nation to land an astronaut on Mars.

When I took over, NASA was a shell of itself. It was close, it was -- they grass growing in the runways, grass growing in the runways. Now, it's the No. 1 Space Center in the world by far. We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history, and always respect our great American flag.

We will live by the timeless words of our national motto, In God We Trust, and we're going to keep it that way. For years, you had a President who apologized for America. Now, you have a President who is standing up for America and standing up for your state, Nevada. So get your friends, get your family, get your neighbors, get your co-workers, and on November 3rd or sooner, get out and vote.

From Carson City to Elko, from Las Vegas to Reno, from Minden to right here in Henderson, we stand on the shoulders of red-blooded American patriots who poured out their hearts, sweat, and soul to secure

our liberty and defend our great freedom. Nevada was founded by pioneers and prospectors, miners and cowboys, innovators and trailblazers who tamed the frontier, raised up the mighty Hoover Dam, transformed a sprawling desert into a shining Oasis, and inspired the world with the brilliant lights of the Vegas strip.

Our American ancestors made this into the greatest nation ever to exist on the face of the earth and we are going to make it greater than ever before. That's what we're doing. Proud citizens like you helped build this country and together, we are taking back our country. We are returning power to you, the American people.

With your help, your devotion and your drive, we are -- you know the story. We are going to keep on working, going to keep on fighting, and going to like these guys keep on winning, winning, winning. Do you hear that Colby? Do you hear that Justin, OK? He's fighting that tough customer, but I don't know.

I think maybe I'm in Vegas. I guess I'll have to place -- is the President allowed to place a bet? I don't know. They'll say the President of the United States just placed two bets, Justin and Colby. I don't know. I don't know, but they are great. That'd be easy money. Well, maybe not that easy. I don't know.

Is that easy? We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Nevada, we will make America wealthy again, we will make America strong again, we will make America proud again, we will make America safe again, and we will make America great again. Thank you. Thank you, everybody.
