

## Graphic Face The Truth Signs Save Lives

Recently at Planned Parenthood in Bridgeville, PA a young woman with a small child in the back seat stopped her car to talk to Tom Gillen who was holding a 3 by 5 foot picture of an aborted baby. Tom thought, here we go again with "my child will have nightmares from seeing that awful sign". But instead she said, "I saw people like you out on the road a few years ago. I was scheduled to have an abortion but that sign changed my mind. And there in the back seat is the joy of my life." She said, "Thank you and God bless you". The light changed and she drove off. And this story has been repeated time after time.
